FOR IMMEDIATE RELEASE

MP Lighting to showcase new luminaires at LEDucation 2019

(Vancouver, BC, Canada – January 24, 2019) Within the last year, MP Lighting has introduced new members in almost all of our product categories, both architectural and decorative, and from interior to exterior. Returning to LEDucation this year, we are bringing L698 pendant, L421/L422 downlights and L730D/T to New York, together with the luminaires that we are known for.

New Cone Pendant L698

Ideal for hospitality to create focal point lighting effect to the bar areas and dining tables without intruding the atmosphere or other design elements.

Mounting options include canopy and as part of track systems.

Available in Matte Anodized and Black Anodized aluminum finishes. 4W and 8W power options. Fist-sized cone (2 3/4" diameter, 3 3/4" height) with up to 8' stem.

Wine Rack L182 and cone pendants L698 over the bar counter

Recessed Downlights L421, L422

Come at 13W, these two luminaires provide the option of full-spectrum LEDs that render the light output close to natural sunlight (CRI 97+).

Multiple-head Spotlight L730D, L730T

Developing from L730, the multiple-head spotlights are perfect for creating highlighting effects in different nearby areas with minimum number of luminaires needed. With the swivel range of 180 degree and rotation range of 360 degree, this product line offers a remarkable versatility solution to the lighting design projects.
