RLE Industries: Celebrating the New Era of Lumenera

Architectural Commercial and Industrial Lighting Fixtures Reimagined

Fairfield NJ: [RLE Industries](#), trusted name in the architectural, commercial and industrial lighting space for over 75 years, is celebrating “The New Era of [Lumenera](#)”. This architectural linear LED line from RLE Industries is built from solid aluminum extrusions and powered by high-quality LED boards and driver technology, to deliver reliably smooth illumination in well designed, durable and aesthetically-pleasing fixture housings. Visit the newly-redesigned [RLE Industries website](#) to explore all the features and benefits of the Lumenera brand and all the other products RLE has to offer.

The Lumenera line sets itself apart by making **installation and maintenance simple and cost effective**.

Gerald Coppola Sr., VP of Sales at RLE Industries explained, “Lumenera products are customizable, elegant, timeless, and functional. Additionally, the Lumenera line allows customers to pick their dimensions, so we can really deliver a custom fixture that makes their luminaires stand out and perform as desired. Customers and reps find the versatility, ease of install, and minimal maintenance deliver cost savings and reliability.”

RLE Industries has a reputation for manufacturing quality fluorescent lighting products, providing exceptional service to customers and is now leading the way in LED technology. The RLE team is excited to introduce this line of lighting fixtures for commercial, industrial and architectural lighting applications on the new website.

About RLE Industries: With over 75 years of experience in the professional lighting industry. Knowledgeable professionals bring their decades of experience to design and develop durable, high quality lighting fixtures to meet customer needs. RLE can offer models for commercial, architectural and miscellaneous applications, as well as customizing standard products for short and medium runs that meet any reasonable request. Products proudly manufactured in the USA. RLE Industries is the newest division added to the Vcom IMC family of companies.

About Lumenera: An operating division of RLE Industries, Lumenera Lighting is an architectural linear LED line of products. Lumenera products use the most reputable names in LED board and driver technology using our preferred Philips Lighting systems and components to deliver reliability smooth light in well-designed, built to last fixture housings.
