Barn Light Electric Shares Beauty, Benefits of Porcelain Enamel LED Lighting at LEDucation 2019

TITUSVILLE, Fla. (22 February 2019) — Barn Light Electric will join fellow LED lighting innovators at next month's LEDucation Conference and Tradeshow in New York City.

As America's sole manufacturer of porcelain enamel lighting, Barn Light Electric leads the industry in handcrafting high-quality porcelain lighting with the latest in LED technology. Barn Light representatives plan to exhibit a number of new pendant styles at this year's LEDucation including the Touchdown LED Pendant from the High-Lumen Lineup Collection. They will also share some classic, vintage-inspired favorites like the Ivanhoe® Sky Chief Pendant.

Barn Light Electric is well known for its high-quality, American-made lighting that is easy to customize to suit most any residential style or commercial brand. With an array of finish colors, mounting styles, and other options including color temperature, lumens, and lens styles, our porcelain enamel LED lighting is both beautiful and energy efficient!

For additional information, please contact our sales team at 800-407-8784, via email at sales@barnlight.com, or via Live Chat from our home page.
