

T-BAR UP™ by JLC • tech

T-BAR UP™ Profile

Patent No. 8,177,385; 9,879,850. Additional patents are pending.

JLC-Tech creates the only patented lighting products that replace the grid in a suspended ceiling system.

The T-BAR UP™ provides ambient uplight while only extending 2" below the ceiling plane.

The first indirect lighting product of its kind, the T-BAR UP is ideal for open-office plans and other spaces where a sleek modern design is desired. The low profile of the T-BAR UP enhances the interior architecture while also conserving ceiling plenum space. With built-in shielding for maximum light reflectance into a room, the T-BAR UP can be installed simply by replacing the cross tees in a suspended grid ceiling. Its unique design reduces direct lighting glare providing a great solution to help meet the luminance requirement for LEED V4 and WELL Standard.

JLC-Tech was founded in 2010 with one singular vision: to create unique and useful LED lighting fixtures. Our flagship product, the T-BAR LED™, is the manifestation of our mission and dedication. JLC-Tech designs and manufactures the only patented lighting products that replace the grid in a suspended ceiling system.

MADE IN USA

Product Feature

- ✓ Low profile design
- ✓ 2-in-1 T-Grid & LED light
- ✓ Snap-in installation
- ✓ Flexible design layouts
- ✓ Designed for long life
- ✓ Built-in shielding for maximum light reflectance
- ✓ An indirect lighting design to maximize light reflectance and reduce direct lighting glare

Customer Benefit

- ✓ No plenum occupancy
- ✓ Optimized acoustic levels
- ✓ Reduced installation costs
- ✓ Optimum light design
- ✓ Backed by 5-year warranty (L80>61,000 Hrs.)
- ✓ More even illumination
- ✓ Helps meet the luminance requirement for LEED V4 and WELL Standard

(The T-BAR LED product line is protected under the following patents: Patent No. 8,177,385; 9,879,850. Additional patents are pending.)
