

FOR IMMEDIATE RELEASE:

(DETROIT, MI 02.22.2019) Kirlin Lighting will introduce two new advanced lighting technology lines of luminaires at LEDucation, from Booth GB402, March 12-13, 2019 in New York City.

 **RADIANCE** Full spectrum tunable white LED luminaires enable the user to:

Change the Color  
Change the Intensity  
Change the Mood  
and  
Improve Performance  
Improve Healing  
Improve Health

Kirlin's  **RADIANCE** mimics full spectrum sunlight from 1650°K to 8000°K and is programmable to 24 hour circadian cycle or on-demand control of color and intensity. Full family of round and square downlights, adjustables and wall washes.

Lighting for **Behavioral Health** from Kirlin provides ligature resistant properties with residential aesthetics and well controlled glare free illumination. Our collection of shallow recessed luminaires includes vandal resistant, IP66 Rated, Cleanroom Class100 ISO5 Rated, UL Listed Wet Locations, Type IC, antimicrobial finish, with multiple lumen packages, spacing criteria and color temperatures.
