

FOR IMMEDIATE RELEASE

Meteor Lighting to showcase new luminaires at LEDucation 2019

(City of Industry, CA, USA – February 18, 2019) Meteor Lighting has introduced new products in both specialty high bay and cylinder offerings. Returning to LEDucation this year, the company will be showcasing the WHIZ 2.0 - a new Architectural High Bay Solution as well as the DUO - up and down lighting solution.

Whiz 2.0 Architectural High Bay Solution

Ideal for high ceiling applications and natatoriums to create consistent illumination without intruding the atmosphere or other design elements. Uplight mounting for natatoriums is available and come in black and white aluminum finishes. 120W, 170W, 240W and 300W options with maximum lumen package of 35,400 lm.
