BOOTH 813**

**Design & Construction:** With no visible seams or fasteners make the SScI Cylinder line the sleekest looking cylinder on the market. Engineered with a revolutionary heat dissipation component, these highly modular fixtures come available with style options that create limitless possibilities for any lighting specifiers dream application. **Toolless field interchangeable optics**, and **twist lock mounting** make installation quick and easy. From the wide variety of mounting capabilities, optical distributions, and optional accessories, these Cylinders have an unmatched flexibility for specifying powerful lighting with an equally sophisticated style.

**Glow Effects:** Halo lighting from the top of a surface mounted fixture and a variety of Glow Diffuser lengths create an intriguing lighting effect for the SScI high-powered indoor cylinders.

**Direct & Indirect:** Solid State Luminaires pushes the capabilities of up and down cylinder lighting to include stylish up lighting for pendant and wall mount applications.

**Style & Accessories:** Add to your dream specification and create striking lighting effects with **Cluster** lighting or an **Angle Cut** visor. Limitless design flexibility to enhance mood and environment. **SScI Series Cylinders** come in 2.5", 4", 6", 8" and 10" diameters that are available from 6" up to 20" long.

**Optics & Color Control:** Optimal lighting and control flexibility is achieved by adding several power, dimming and EMR options. Combined with **Field Interchangeable Optics** and American engineered performance features Solid State Luminaires has created high lumen output with a high efficacy. Offering Dim to Warm, Tunable White and Static Colors. Multiplied by a large variety of beam patterns **SScI Series Cylinders** hands down outperform the competition.

**Power, Dimming & EMR Flexibility:** Offering the widest variety of integral power and control options on the market today! Available with Dali, DMX, ELV, 0-10% and Bi-Level Dimming options. Integral power supply, EMR and Wireless control compatible with all control and dimming protocols. Lutron Ecosystem® compatibility and eldoLED drivers are also available. A variety of Power options and Dimming Controls with zero flicker during color transitions round out the most comprehensive cylinder lighting solutions available on the market today.

### SScI DESIGN SERIES CYLINDERS

by Solid State Luminaires are engineered to combine unique Glow Effects with specification grade lighting performance. These high-powered interior fixtures offer design features that make them the most versatile cylinder series on the market. The basic cylinder body has no visible seams or fasteners and is engineered with advanced Thru-Cool™ heat dissipation technology. Specifiers can choose from the widest variety of control capabilities and power features available. This cylinder line offers high performance plus the addition of Halo and Glow Diffuser effects. The combination of specifications, design features and accessories make it one of a kind!
