## **Selux Announces Participation in LEDucation 2019**

**Highland, NY, February 20, 2019** – Selux Corporation, a leading manufacturer of architectural lighting, has announced its participation in LEDucation 2019. LEDucation is the ultimate marketplace for solid state lighting innovations, giving industry professionals a chance to experience new technologies as well as continue their education through a wide range of accredited seminars. LEDucation is a non-profit event, and its proceeds help stimulate future LED advancements by supporting a variety of grants, scholarships, and lighting programs.

Featured in this year's Selux LEDucation display are:

**Modular Columns** - Solving the issue of visual clutter – Selux Modular Columns integrate a wide range of unique optical systems and high-end camera and speaker options.

**Miaura™** - With a variety of lighting modules to fulfill many design needs, Miaura™ is a flexible system for now and for the future.

**M36** – Designed with different optical systems for symmetrical and asymmetrical photometrics, M36 LED provides the building blocks for future-oriented lighting schemes.

**Piix™ MRC** - Creating dramatic lighting effects without uncomfortable high-angle glare.

**M-Series LED Shapes** – With its lit corners and new configurations, Shapes is an expansion of our existing M-Series LED products that offers non-custom solutions for pendant and recessed geometric shapes.

**Gen5** – A proprietary LED light engine and optical system that allows for precision, with customizable light distributions, aiming the majority of light right on task.

“Our attendance at LEDucation underscores our dedication to architectural lighting. As one of the top innovative lighting manufacturers, we look forward to sharing our visions with our industry partners.” said Peter Stanway, CEO. You can find Selux Corporation at booths AH2117 and AH2119 in the Americas Hall at LEDucation 2019.

#####

Founded over 70 years ago in Berlin, Germany, Selux provides high-end lighting solutions to both the private and public market sectors. In 1983, Selux expanded its operations to the US and opened a state-of-the-art facility in Highland, NY. Selux Corporation luminaires made at the Highland facility can be found at the World Trade Center Memorial, McCarran International Airport in Las Vegas, the Heineken Headquarters in New York City, the City of Beverly Hills, the Minnesota Twins Stadium, and in more businesses, institutions, government offices, and parks throughout The Americas.
