

Feelux Lighting introduces FLXible Neon™

For flexible, spot-free illumination

PRODUCT ANNOUNCEMENT:

Feelux's **FLXible Neon™** is a superior flexible LED luminaire designed to provide an easy to install, spot-free linear LED solution, used in retail, residential, architectural and hospitality applications. Available in a horizontal bend or a vertical bend, **FLXible Neon™** provides a seamless, ultra slim profile with a 3.8W/FT "Spot Free" appearance made possible from close pitch LEDs and long run lengths. The linear luminaire is totally self-contained in an IP67 rated housing for use in both indoor and outdoor applications. Limitless run length is achieved by utilizing 16.40'(5M) individually powered reels that can be cut as small as 1.5" lengths. **FLXible Neon™** can be cut in the field and still maintain an IP65 rating with Feelux's specially designed field termination kit. With a small profile of only 0.315" W x 0.47" H and a wide choice of color temperatures from 2200K to 6000K, **FLXible Neon™** offers full range dimming, a variety of mounting options and is available for Quick Ship.

FLXible Neon™ Product Features:

- 3.8 W/FT
- 2 Profiles:
 - FLXible Neon 1 – Horizontal Bend
 - FLXible Neon 2 – Vertical Bend
- Three power feed options: Standard, Side Feed and Bottom Feed
- Available in 2200K, 2400K, 2700K, 3000K, 3500K, 4000K, 5000K and 6000K
- Maximum Length: 16.40ft (5,000mm)
- Minimum Length: 1.51in (38.5mm)
- Minimum Bending Diameter: 3.93in (100mm)
- Beam Angle: 130°
- IP67 with factory termination (Customized length available)
- IP65 with field termination kit
- 24V DC
- Dimmable with 0-10V, Forward/Reverse Phase
- Color rendering: Ra>80
- ETL US listed

ABOUT FEELUX

We consider even the smallest design element significant. Renowned for worldwide patents, Feelux products are some of the most advanced, viable and energy-efficient electronic ballast and lighting systems for both fluorescent and LED on the market. The standards at our globally-located, state-of-the-art facilities in the Korea and other Asian locations ensure that anything we research, design, engineer or manufacture reaches new heights in the international lighting design community.

We're More Than a Lighting Fixture Company

It is uncommon today to find a company that actually makes what it sells... a company that stands behind every detail. At Feelux, we manufacture all of our components to function uniformly and seamlessly. This expertise is our guarantee that whichever fixture you specify, our lighting products will work perfectly in conjunction and have consistent lighting effects. At Feelux, we deliver products of the highest quality, and with continuously innovative product development, we continue to be a leading provider of new and inventive high quality fixtures for your commercial applications.
