For Immediate Release
East Rutherford, NJ

Kreon ato – a circular projector light used as a recessed downlight by placing the adjustable lamp on the front and by showcasing the design using different finishes.

Kreon ato provides a truly versatile lighting tool. The Kreon ato is a recessed indoor spotlight family for focused light. With single or double directional lampheads they meet the needs of accent lighting requirements in residential environments, commercial premises and hospitality projects.

Kreon ato has a rotational adjustment of 360º and an angular adjustment of 30º which, when combined with the choice of high quality reflectors with facetted spherical smooth surfaces provides a truly versatile accent lighting tool. Kreon ato single comes in two beam angles, flood (30º) and wide flood (40º) and can be additionally equipped with professional screening accessories. Kreon ato twin has two lampheads with 30º flood optics than can be tilted independently.

Repositioning the light source to the front increases the efficiency and range of the light without compromising on comfort. The characteristic anti-glare snoot and aluminium optics contribute to ensuring this comfort. Ato is available in single or twin, flange or flangeless. With its innovative design comprising two adjustable spotlights in a single aperture, kreon ato 80 twin is a smart solution for better focused light. In this way, different layers of light may be emitted from a single point.
Mounting
