Sternberg Lighting is excited to introduce our newest product offerings at LEDucation 2020, Booth 4003.

The Villa™
With the new Villa family from Sternberg Lighting, the power to create is in your hands. This classic urban design form can be tailored to the specifics of your vision, to complement your space and architectural characteristics like no other luminaire. Choose from a variety of elements to create a fixture that is uniquely yours. Perfectly suited for a wide variety of area and street lighting, Villa is available in multiple sizes and mounting configurations, each of which can be designed using a variety of internal and external components.

Lunaria™
Sternberg Lighting’s Lunaria™ is a beautiful family of luminaires that combines the virtues of comfortable nighttime illumination, with a sleek, urban daytime aesthetic. Lunaria’s sleek lines accentuate contemporary architecture and urban areas, making it the perfect complement to parks, retail venues, office plazas, and transit stations. The Lunaria™ family consists of two sizes of post top fixtures, along with bollards and wall sconces.

Color Changing Rialta™
Whether you’re illuminating open areas and pathways, or placing a sleek beacon for wayfinding, the Rialta™ column lights are the solution. Blending form with function, our expanded collection of columns and bollards brings visual comfort and safety in a variety of sizes, shapes, finishes, and mounting options. Now with the added dimension of color, transition your column or bollard to virtually any color in the spectrum for a variety of uses and occasions.

About Sternberg Lighting
Sternberg Lighting designs and builds decorative and functional outdoor pole mounted luminaires that meet design standards for Traditional and Contemporary environments. Serving the Municipal, Landscape, Higher Education and Commercial markets, Sternberg uses the latest in solid state technology in it products and provides the most efficient and cost effective lighting solutions. Sternberg has illuminating more than 450,000 installations throughout the United States and Canada.
