LEDucation 2020 to Take Place March 17–18

The health and safety of our attendees and exhibitors is our primary concern and we are monitoring the situation regarding COVID-19, both in the United States and internationally. At present, the situation has not impacted attendee or exhibitor registration and we will continue as planned.

LEDucation 2020 will host more than 400 exhibitors representing the lighting industry’s most innovative design and technology companies.

The exhibit area has been expanded to include a Controls and Components showcase on the second floor of the Americas Hall, where controls and components manufacturers will present their latest products to the specification, manufacturing and lighting design community.

The Conference is set to feature 33 sessions, led by lighting and allied field industry experts. Topics at the conference will cover lighting design trends and solutions, advances in lighting controls, connected lighting technology, lighting to adhere to energy, environmental, and building codes and compliances, healthy and circadian lighting, methods and strategies for exterior lighting, acoustic and lighting design, and much more.

Registration information, exhibitor list, and a listing of abstracts and speakers can be found at leducation.org

Celebrating its fourteenth year, LEDucation is dedicated to advancing the education of those who seek knowledge in lighting and provides a unique opportunity for attendees to learn what’s trending in the lighting industry as well as gain powerful insight on solving lighting challenges by applying current best practices. LEDucation is a non-profit event, and its proceeds help stimulate future LED advancements by supporting a variety of grants, scholarships and lighting programs.

LEDucation 2020 will take place on Tuesday, March 17, 2020, 10:00 a.m. – 7:00 p.m. and Wednesday, March 18, 2020, 9:00 a.m. – 3:00 p.m.

About LEDucation

Organized by the Designers Lighting Forum of New York, LEDucation is the ultimate marketplace for solid-state lighting innovations, giving industry professionals a chance to experience new technologies as well as continue their education through a wide range of accredited seminars. LEDucation is a non-profit event, and its proceeds help stimulate future LED advancements by supporting a variety of grants, scholarships, and lighting programs. leducation.org/

About the Designers Lighting Forum of New York

The Designers Lighting Forum of New York is committed to exploring and presenting the power of lighting in design. Founded in 1934, the Designers Lighting Forum is a non-profit organization, led by a volunteer Board of Managers and sustained by member dues and the generous support of corporate sponsors. They enthusiastically provide designers, architects, manufacturers and their representatives, contractors, educators, and students the opportunity to meet and experience the wonder of lighting in New York City and beyond. The DLFNY also supports formal lighting education through contributions to local universities and design schools, as well as national funds. To learn more, visit dlfny.com
