

## LEDucation Reschedules to August 17–18, 2021

NEW YORK, December 2, 2020 — Due to the continuing uncertainty of the pandemic, along with New York State and City restrictions on assembly, the LEDucation committee has made the decision to reschedule the in-person 2021 LEDucation Tradeshow and Conference to August 17-18, 2021. The in-person event is slated to be held at the New York Hilton Midtown and will continue to include multiple exhibition halls featuring the industry's top manufacturers and suppliers, as well as a dynamic conference program.

In a post COVID-19 environment, LEDucation will continue to prioritize the health and safety of all attendees and will be run in accordance with official government and local authority guidance, as well as New York Hilton Midtown health protocols. This will include enhanced cleaning, non-contact registration, physical distancing, on-site medical staff, personal protective equipment (PPE), screening measures, and adapted conference rooms and sessions. For further information on event safety, visit [leducation.org/event-safety](https://leducation.org/event-safety)

LEDucation remains committed to keeping the lighting industry connected and will include a virtual component across multiple channels during the August show. Additional information will be available in the coming months.

The March 16-17, 2021 LEDucation Conference will still take place virtually and offer a variety of accredited webinars—all with a focus on solid-state lighting. In addition, a virtual Online Marketplace will begin March 16th that will allow registered attendees to review the latest products and technologies from LEDucation 2021 exhibitors, free of charge. Further details will be provided in January 2021.

LEDucation will continue to update the [LEDucation website](https://leducation.org) with information and resources to keep you informed on plans for the show.

### **About LEDucation**

Organized by the Designers Lighting Forum of New York, LEDucation is the ultimate marketplace for solid state lighting innovations, giving industry professionals a chance to experience new technologies as well as continue their education through a wide range of accredited seminars. LEDucation is a nonprofit event, and proceeds stimulate future LED advancements by supporting a variety of grants, scholarships, and lighting programs. Visit [leducation.org](http://leducation.org) for more information.

### **About the Designers Lighting Forum of New York**

The Designers Lighting Forum of New York is committed to exploring and presenting the power of lighting in design. Founded in 1934, DLFNY is a not-for-profit organization, led by a volunteer Board of Managers and sustained by member dues and the generous support of corporate sponsors. The DLFNY enthusiastically provides designers, architects, manufacturers and their representatives, contractors, educators, and students with opportunities to meet and experience the wonder of lighting in New York City and beyond. The DLFNY also supports formal lighting education through contributions to local universities and design schools, as well as national programs. Visit their website at [dlfny.com](http://dlfny.com)
